FEATURED PROJECT

CLAIMS PROCESSING AUTOMATION

For a regional insurance brokerage, we automated claims routing through Microsoft 365. Forms are now validated and assigned instantly – reducing processing time from days to hours.

FAQ

What if I host my systems independently? ✓

We'll still ensure reliability within the scope of our deployment and offer performance monitoring options.

Are these guarantees included in every contract? ✓

Yes. All Mijane Technologies projects include these service guarantees in the statement of work.

What happens after the 90-day support window? ✓

You can extend coverage under a Managed Service agreement for continuous monitoring and updates.

Do you guarantee compliance with government IT standards? ✓

Yes – our configurations align with NIST, HIPAA, and local government data standards.
