MIJANE TECHNOLOGIES LLC
Glenolden, Pennsylvania

PARTNER CAPABILITIES STATEMENT

Grant technology.
A partner for the whole program.

Mijane Technologies combines grant software, hands-on implementation and managed operations. We also build custom applications and workflow automations.

WHAT WE DELIVER

Granted + grant operations

Live grant platform, applicant support, board packets and program administration.

Custom software & automation

Web applications, integrations and Power Platform workflows.

Implementation & migration

Program setup, historical records, access controls and staff training.

Pursuit | launching soon

Grant discovery and application management for nonprofits and grant writers.

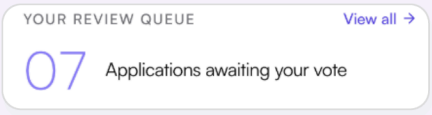

SELECTED EXPERIENCE

Pennsylvania county grant authority

388

historical awards consolidated

Applicant intake, board review and voting, decision records, board reporting and managed operations.

Granted interface detail

Who to introduce us to

County authorities, municipal grant offices, redevelopment and economic development agencies, arts commissions and gaming-revenue authorities.

People: grant managers, finance directors and executive directors.

Also connect us with nonprofit grant consultants for future Pursuit referrals.

Where we fit on a joint bid

Technology and grant-systems partner for grant management and administration RFPs: software, automation, migration, training and operational support.

Complementary partners

Grant and compliance consultants, CPA firms, public-sector primes and local delivery partners.

Founder-led | Glenolden, Pennsylvania
