MIJANE TECHNOLOGIES LLC
Glenolden, Pennsylvania

PRODUCTS & DELIVERY

Grant software.
Backed by hands-on delivery.

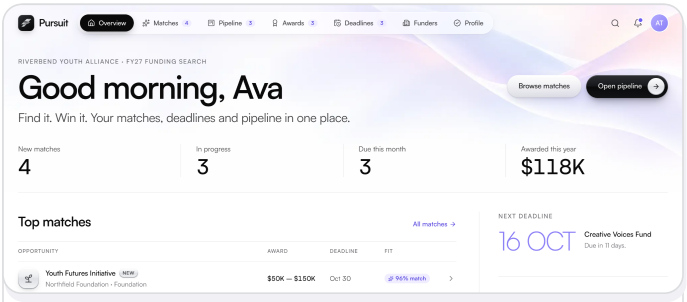

A grant platform is only part of the job. We configure the workflow, migrate the history and help the people running the program put it to work.

GRANTED / LIVE

Decision overview | interface detail

PURSUIT / LAUNCHING SOON

Discovery. Applications. Deadlines.

Pursuit preview | illustrative data

For the teams awarding grants.

Applicant intake, independent board review, funding recommendations and one-file board packets.

For the teams pursuing funding.

Planned grant discovery, application tracking and reporting calendars for nonprofits and grant writers.

Why partner with Mijane.

A clear delivery role

Bring us in for the technology, workflows, implementation and ongoing support.

Software plus operations

Offer clients a platform and a team that understands the grant cycle.

Public-sector experience

County-level grant administration, with 388 historical awards consolidated.

Need a technology partner for your next grant program?

GRANTED / LIVE

Board packets.
Ready for the next meeting.

Turn each application into a single PDF packet, so board members can prepare from the same record and staff can spend less time assembling meeting materials.

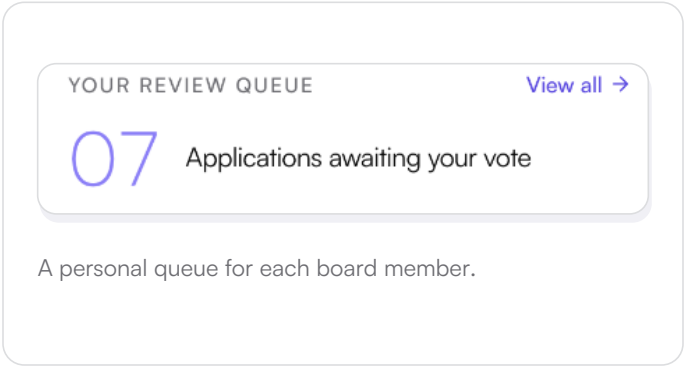

Illustrative packet structure

01 / BOARD-READY DELIVERY

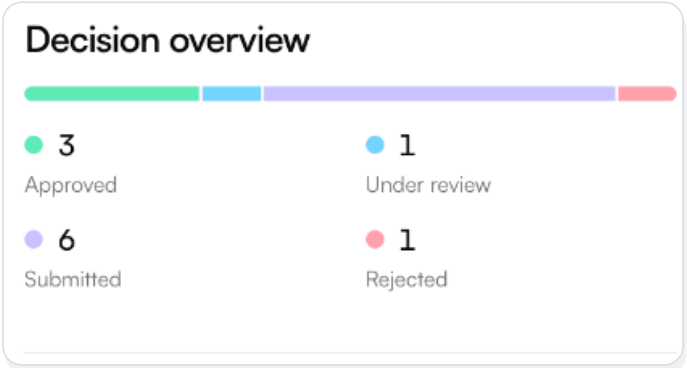

One file.
A clearer review.

Application details, review information and supporting materials stay connected to the grant record.

We handle configuration, historical migration and training for staff and board members.

A personal queue for each board member.

02 / INDEPENDENT REVIEWS

Members see other reviews after submitting their own. Majority recommendations inform an admin-confirmed final decision.

03 / DECISION RECORDS

Database audit trails, role-based access and CSV exports support board reporting and Right-to-Know requests.

Planned extensions: conflict disclosures and enforced recusal, post-award workflows and board meeting tools.

Let's compare opportunities.

PURSUIT / LAUNCHING SOON

Find funding that fits. Keep applications moving.

For nonprofit grant consultants and development teams: planned discovery, application management and award obligations in one workspace.

Product preview | illustrative organization, opportunities and figures

01 / FUNDING DISCOVERY

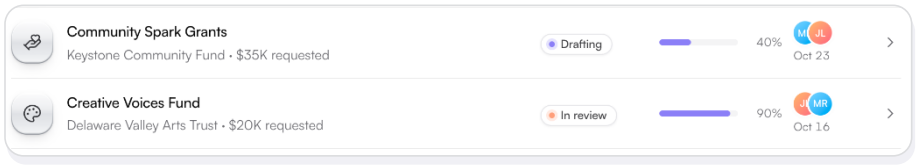

Make the next application count.

Source-linked opportunities and explainable match scores help a team decide where to invest its time.

A human confirms eligibility and approves application content.

Reuse the facts your team has already approved.

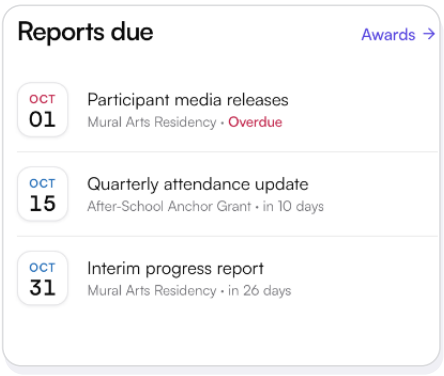

A shared answer library and organization profile keep core information consistent across applications.

02 / SHARED APPLICATION WORK

A clearer handoff for every task.

Track owners, status and due dates. Reuse approved answers and a shared organization profile across applications.

03 / REPORTING CALENDAR

Keep report dates, award requirements and supporting evidence in view.

Partner opportunity: introduce nonprofit grant consultants, development teams and organizations seeking a more organized funding process.

Know a nonprofit or grant consultant we should meet?
