

Introducing a better way to

Build and support your team's success.

Technology Made Simpler

We help organizations automate, optimize, and elevate their digital operations — without the friction. From workflow automation to interactive digital experiences and fully managed IT services, Mijane Technologies brings efficiency, reliability, and creativity together.

Power Automate Solutions

- Streamline repetitive tasks with intelligent automation.
- Reduce manual data entry, approval delays, and reporting overhead.
- Seamlessly integrate Microsoft 365, SharePoint, and third-party apps.

Interactive Web Games

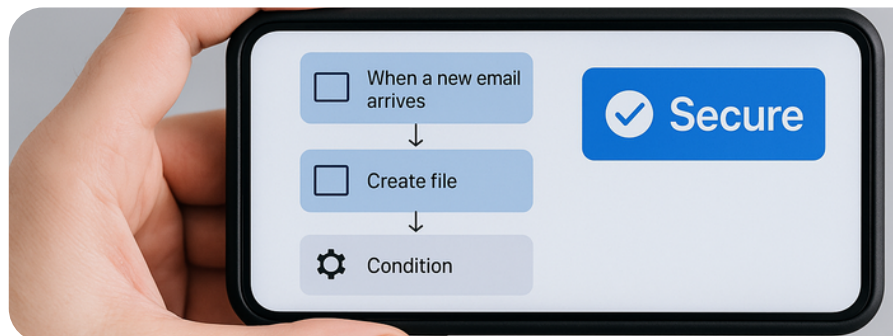

- Engage your audience with gamified experiences that educate and convert.
- Designed for marketing campaigns, internal training, and community engagement.
- Custom-built with animation, logic, and full analytics integration.

Managed Services

- Complete website, data backup, and server management support.
- Secure and maintain critical systems for uninterrupted performance.
- Tailored solutions for government and private organizations — including grant management.
